SPECIFICATION SHEET

HIMLEY COMPOSITE MID CUT BLACK TPU TEK SAFETY BOOT S3S 10/44

Designed to conquer the challenges of demanding work environments, this lightweight Beeswift safety boot is covered in a Tputek material designed for maximum resistance against abrasions. This means your boots will withstand the toughest conditions, ensuring longevity and reliability throughout your workday.

Beneath your feet lies the Dual Density PU sole, engineered with a foam heel insert for superior shock absorption. Say goodbye to fatigue as you navigate through the day with ease and confidence, knowing your boots are working as hard as you are. The nylon mesh inner lining ensures breathability and moisture management, keeping your feet cool and dry no matter the temperature or intensity of your tasks.

Safety is paramount, and these boots deliver on every front. With a composite toe and midsole, you're shielded from impacts and punctures without sacrificing agility or comfort. Heel support adds an extra layer of stability, reducing the risk of injuries as you traverse challenging terrain. Water penetration and absorption resistance keep your feet dry and comfortable, allowing you to stay focused on the job at hand.

Certified to meet EN ISO 20345:2022 standards, these lightweight yet sturdy boots are rated S3S FO SR

- Black/Grey 50% TPU/50% Polyester upper
- High abrasion resistance upper fabric
