

Biosecurity Mats

- FL-04-201: Biomats: '1m x 1.5m' - (150cm x 100cm)
- FL-04-203: Biomats: '1m x 2.5m' - (250cm x 100cm)
- FL-04-202: Biomats: '1m x 2m' - (200cm x 100cm)

Ideal to help prevent the spread of infectious diseases such as Bird Flu and Foot & Mouth.

Bio Security Mats are a hard wearing, disinfectant retaining matting system that is designed to disinfect foot traffic around auction markets, intensive livestock farms, and food manufacturing and distribution plants. It is comprised of a superabsorbent matting encased in an easy to clean, PVC coated polyester envelope which helps to reduce bacterial counts. To install, simply attach to a concrete surface using all the fixings provided eliminating the need to sink a pit or well.

Applications

- Auction Markets
- Intensive live stock farms
- Food manufacturing & distribution plants
- Horticulture units
- Agricultural events/open days
