reinforcements

DESCRIPTION

Work trousers for SRT climbing. A sewn-in strap at the bottom of the thigh allows the rope to be guided (registered design) for smoother climbing. Cordura® reinforcements on the lower legs and Armortex® on the knees give the trousers greater resistance. A bi-stretch fabric makes them extremely flexible and comfortable. Double-opening pockets allow access both when standing up and when wearing a harness. Ventilation zips are fitted at the back of the legs.

COMPOSITION

Main fabric: 4 ways stretch ripstop Nylon with Teflon® Treatment.

Knees: Armortex® Kevlar®.

Lower leg: 500D Cordura®.

CARE

Washing machine at 40°C.

WEIGHT & PACKAGING

Weight in size M: 446 g

Packaging: 20pcs.

Sub-packaging: 1pcs.
