

ULTRALIGHT 1A

The new generation of High-Visibility chainsaw protection for arborists

Now available in men's and women's versions.

No compromise.

Feel light & stay strong.

WHY A NEW HIGH-VISIBILITY TYPE A TROUSERS?

While essential for safety, traditional High-Visibility Type A trousers are often associated with excessive weight, heat build-up and restricted movement.

SOLIDUR set out to change this with this new generation of Type A trousers.

Who is it for?

The ULTRALIGHT 1A Hi-Vis is designed for:

- Arborists and climbing tree surgeons
- Forestry and woodland management professionals
- Rail infrastructure maintenance teams
- Highway and roadside vegetation contractors
- Local authorities and urban tree care services.

It is ideal for working day or night:

- near railways,
- along roads,
- in urban areas,
- or on any site requiring enhanced visibility.

The perks!

LIGHTWEIGHT PROTECTION

A lighter, thinner protective pad

The protective pad offers **reduced thickness and weight** while maintaining fully certified safety performance.

The result:

- Less bulky.
- Improved flexibility.
- Reduced fatigue during long climbing sessions.

A REDESIGNED ERGONOMIC FIT

The ULTRALIGHT features an optimised cut. The trousers stay perfectly in place during movement, bending and climbing.

The fit delivers an immediate feeling of lightness and freedom of movement.

SOLIDUR offers a women's version. This chainsaw protection trousers has a fitted cut that perfectly suits women's body shapes.

ADVANCED LINING TECHNOLOGY

Working in Type A trousers during summer conditions can be challenging. **SOLIDUR** went further by integrating a high-performance technical lining.

The lining features **Drirelease® technology**

Performance benefits:

- Rapid moisture wicking
- Fast drying (up to four times faster than cotton)
- Soft, natural touch
- Enhanced temperature regulation.

CERTIFIED HIGH VISIBILITY

In addition to full chainsaw protection, the trousers are fully certified for high visibility:

- **EN ISO 20471 – Class 2**
- **RIS-3279-TOM Issue 1**

The ULTRALIGHT Hi-Vis Type A combines certified safety and certified visibility in one integrated solution.

HARD WEARING MATERIAL

The ULTRALIGHT has been built for long-term performance in harsh working environments.

Fabrics were selected and tested to provide a better **resistance** and offering superior protection against:

- Tearing
- Snagging
- Abrasion

Thanks to these materials and construction choices, the ULTRALIGHT Type A comes with a **2-year warranty**

More infos
